

ZUKHRIDDIN MIRZAJANOV

Java Full Stack Developer

Phone: [+48793609697](tel:+48793609697)

[Mail me](#)

[LinkedIn](#)

Experienced Java Full Stack Developer with 2 years of experience in designing and developing RESTful APIs, integrating third-party libraries and services, and using agile methodologies. I am always eager to learn and stay up to date with the latest industry trends and technologies. My strong problem-solving abilities, attention to detail, and ability to work well in a team make me an asset to any project.

Skills

Java 8/11/17 | JavaScript | Python | Spring and Spring Boot Framework | Spring data JPA and Hibernate | RESTful web services | PostgreSQL | Angular | Git, GitHub and Gerrit | Docker | AWS | HTML5 | CSS3

Experience

Software Engineer (Java/React/Angular) at Actuo (formerly Asseco Denmark)

(September 2022 - present)

Role and Responsibilities:

- Advanced the Solvency II (SAAS project) by adding features and optimizing existing functionality.
- Utilized Java, React, and Angular to deliver user-centric solutions with agility.
- Collaborated with interdisciplinary teams to ensure seamless integration of cutting-edge features.
- Committed to continuous learning, staying updated with emerging trends and technologies.

Software Programming Instructor at YouTube

(March 2021- present)

- Creating comprehensive video tutorials that simplify complex software engineering concepts.
- Guiding learners through real-world coding challenges and solutions.
- Fostering an interactive community of learners through comments, discussions, and Q&A sessions.
- Empowering viewers to build strong foundations in software engineering for personal and professional growth.

Projects

plancpu.com is a project management SaaS application developed to transform the way organizations plan, execute, and succeed in their projects. The platform emphasizes productivity, collaboration, and security, offering a comprehensive set of features.

Key Features:

- Intuitive User Interface: Designed an intuitive and user-friendly interface for maximum user adoption, resulting in increased productivity across teams.
- Advanced Project Planning: Implemented advanced project planning capabilities, enabling users to create detailed project roadmaps, set clear milestones, and establish dependencies for improved project visibility and resource allocation.
- Real-Time Collaboration: Integrated real-time communication and collaboration features, facilitating seamless sharing of ideas, files, and updates among team members.
- Data Security: Prioritized data security with state-of-the-art encryption and security protocols to protect sensitive project information.

Technologies Used:

- Frontend: ReactJS, JavaScript
- Backend: Spring Boot, Java
- Database: PostgreSQL
- Deployment: AWS
- Version Control: Git/GitHub
